

Install IPTV Smarters on a Firestick

These steps work on Android-based Fire OS devices. They do not work on Fire TV devices using Vega OS, such as the Fire TV Stick 4K Select.

1. Install Downloader

1. From the Firestick home screen, select **Find → Search**.
2. Search for **Downloader**.
3. Select the orange **Downloader by AFTVnews** app.
4. Select **Download/Get**, then **Open**.

2. Allow APK installations

1. Go to **Settings → My Fire TV → Developer Options → Install Unknown Apps**.
2. Select **Downloader** and switch it **ON**.

If **Developer Options** is missing:

1. Go to **Settings → My Fire TV → About**.
2. Highlight your Fire TV device name.
3. Press the **Select/OK** button seven times.
4. Press **Back**, then open **Developer Options**.

3. Install IPTV Smarters

1. Open **Downloader** and select **Allow** if requested.
2. Close the welcome message by selecting **OK**.
3. Select the address box, enter:

6468112

1. Select **Go** and wait for the IPTV Smarters file to download.
2. Select **Install**.
3. Once installed, select **Done**.
4. In Downloader, select **Delete**, then **Delete** again to remove the installation file.

Before installing, confirm the download page clearly shows **IPTV Smarters**.

4. Log in

1. Open **IPTV Smarters** from your Firestick apps.
2. Select **Login with Xtream Codes API**.
3. Enter the details supplied by your IPTV provider:

Any Name: My IPTV
Username: YOUR USERNAME
Password: YOUR PASSWORD
Server URL: http://your-server-address.com:port

1. Select **Add User** or **Login**.
2. Wait for the channels, movies, series and TV guide to load.
3. Open **Live TV**, **Movies** or **Series**.

Make sure the server URL includes the correct `http://` or `https://` and port number, with no extra spaces in any login field.
