3. Enter the details supplied by your IPTV provider:

Any Name: My IPTV
Username: YOUR USERNAME
Password: YOUR PASSWORD
Server URL: http://your-server-address.com:port

1. Select **Add User** or **Login**.
2. Wait for the channels, movies, series and TV guide to load.
3. Open **Live TV**, **Movies** or **Series**.

Make sure the server URL includes the correct `http://` or `https://` and port number, with no extra spaces in any login field.

App availability can vary by TV model and region. If the app is not shown in your TV's store, it is not currently available for that model or store region.

If the login details are correct but the Smart TV app rejects the server URL, ask your IPTV provider whether its server URL is registered for the Smart TV version of IPTV Smarters.
